DESCRIPTION:

DaVinci Tower- Pagani. Living as a work of art. Icon designed to capture the gaze and redefine contemporary architecture. **DaVinci Tower by Pagani is a symphony of dynamic lines, bold geometries and transparencies that seem to defy gravity.** As you approach the structure, its most striking signature emerges: a suspended sphere floating between the volumes of the tower, a symbol of engineering perfection and visionary design. In the heart of Dubai, just steps from the Dubai Water Canal, the vibrant Marasi Business Bay, and with direct views of the Burj Khalifa, this one-of-a-kind tower is part of the new world capital of art, fashion, and design. The interior, taken care of in detail, **combines excellent materials, sculptural surfaces and harmonious lines.** 1, 2, 3 and 4 bedroom apartments, plus duplexes and villas with private pools overlooking the canal. **Bright spaces**, fine marbles, private terraces. **The entrance to the tower is a sensory experience:** the Steel Atrium, inspired by the fluid curves of Pagani design. Steel and carbon fiber surfaces, natural leather and scenic kinetic chandeliers. Environment where art and engineering coexist in perfect balance. Concierge and assistance 24/7, home care, private organization. Wellness areas and spaces designed to ensure discretion, comfort and total exclusivity. The images are renderings for illustrative purposes.
